9. The main fluctuations in the trade with each of the countries above named are specified below. The causes of increase and decrease in the principal items of Trade will be given further on.

10. Amongst all the Foreign Countries the United Kingdom stands first. The increase was principally attributable to larger Imports of Cotton Piece Goods, Machinery and Millwork, Metals and Woollen Goods. Decrease occurred in Cotton Twist and Yarn, Railway Plant and Rolling Stock, and Treasure. The increases and decreases under each principal head are shown below :—

11. The Transit Trade, shown up to the past year under the heading of Suez, has this year been classed under the respective countries concerned.

Austria.—The increase of Rs. 2,04,459 is principally due to large importation of Silver during the year under report.

France.—Shows a large increase of upwards of 14 lacs of rupees, which is in the importation of Liquors, chiefly Brandy.

Italy.—Large imports of Silver and Cotton Piece Goods account for the increase. During the past four years the imports of Treasure were nil, while during the year under report, Silver amounting to upwards of 11 lacs of rupees was imported.

Turkey in Europe.—The increased importation of Cotton Piece Goods and Silk Raw account for the increase.

Other Countries in Europe.—The increase of Rs. 2,12,082 is chiefly made up by the imports of Wine from Portugal, Woollen Piece Goods from Germany, Cotton Twist from Holland, Coal and Silk Raw from Russia, and Wines and Woollen Piece Goods from Spain. There were no imports from Holland or from Germany during the last four years. The imports from Russia during the previous year were nil.

Eastern Coast of Africa.—The increase is mainly due to large imports of Ivory and Cloves. Imports of Treasure however exhibit a decrease.

Egypt.—The increase of upwards of 9 lacs is owing to large imports of Treasure from Suez.

Mauritius.—Large imports of Sugar account for the increase.

Other Countries in Africa.—The increase of Rs. 46,413 is wholly due to the imports of Treasure and Merchandize from Madagascar, from which place there were no imports during the last 10 years.

Aden.—Ivory, Cloves, and Silver are the items of increase.

Mocktan and Sonmeanee.—The increase of Rs. 38,850 is owing to large importation of Provisions.

Straits Settlements.—The increase is chiefly due to large imports of Tin and Rosin.

Other Countries in Asia.—There were large imports of Wood from Siam. The total value of imports from Japan is Rs. 5,339 and from Maldives only Rs. 127. There was no trade with Japan and Siam during the last 3 years, or with Maldives during the past four years.

12. With the under-mentioned Countries the trade shows a decrease as compared with the last year.

Malta.—No imports of Treasure during the year under report, and less imports of Merchandize account for the decrease.

America, United States.—Less importation of Ice, Oils and Rosin is the cause of decrease. The value of Treasure imported during the last year was Rs. 30,000, while none was imported during the year under report.

Turkey in Asia, Arabia and Persia.—The decrease is owing to less imports of Gums as well as Drugs and Medicines and Precious Stones and Pearls from the Persian and Arabian Coasts. The trade with Persia and Arabia not being separately registered during the previous year as in the year under report, no proper comparison with each country can be made, and therefore they have been treated together.

Ceylon.—The decrease is principally in the importation of Gold, and Silk Raw.

China.—Glass, Silk Raw, and Gold and Silver are the items of decrease. The importation of Tea and Sugar however shows an increase.

Australia.—The decrease is owing to less importation of Gold.

14. The decrease in the value of the Export Trade is mainly due to the falling off in the Exports of Cotton Raw, and Opium.

15. The following tabular statement is given to show the state of the Trade in Cotton, Raw, at Bombay, during the last ten years :—

United Kingdom.—The chief increases were in Dyeing and Colouring Materials, Grain and Pulse, Hides and Skins, Ivory, Seeds, Spices, and Wool Raw, and Manufactures thereof. Cotton and Opium show a decrease.

Austria.—The Export Trade with this country shows a decrease of Rs. 12,29,937, chiefly in Cotton Raw.

France.—Cotton Raw shows a decrease of Rs. 58,25,979, and Grain and Pulse of Rs. 5,49,655. Seeds and Treasure, however, show a large increase.

Germany—Shows a decrease of Rs. 6,62,890, which is almost all in Cotton Raw.

Malta.—The decrease is principally attributable to the less exports of Grain and Pulse during the year under report.

Turkey in Europe.—The decrease is chiefly in Oils.

Eastern Coast of Africa.—Apparel, Cotton Piece Goods, Hardware and Cutlery, Provisions and Sugar and other Saccharine produce are the principal items of decrease.

America : United States.—The decrease is chiefly owing to less exports of country Seeds and Foreign Spices.

China.—There is a large falling off in the exports of Opium. Cotton Raw and Twist, however, show a large increase. Treasure also exhibits an increase of upwards of one lac.

Australia.—The decrease of Rs. 2,727 is trifling and does not call for remark.

17. With the undermentioned countries the trade shows an increase :—

Belgium.—The increase is attributable to large exports of Cotton Raw and Seeds. There was no Export Trade with this country during the previous three years.

Greece—Shows an increase, which is chiefly in Apparel.

Holland.—The increase is almost wholly in Cotton Raw and Seeds. There were no exports to this country last year.

Italy.—Large exports of Cotton Raw account for the increase. There is a decrease, however, in the exports of Grain and Pulse.

Russia, Spain, and Egypt.—The increase against Russia of Rs. 9,34,495, Spain of Rs. 7,41,848, and Egypt of Rs. 10,90,012 is owing to heavy exports of Cotton Raw. Seeds, which had not been exported for the last four years to Egypt, were this year exported to the extent of nearly 2 lacs, probably for Mediterranean Ports.

Mauritius.—The increase is in Treasure, which is owing to the increased importation of Sugar. No Treasure was exported last year. Exports of Grain and Pulse show a decrease.

Natal and Madagascar.—The exports were very insignificant, viz., Rs. 110 for Natal and Rs. 460 for Madagascar. Natal appears for the first time, as it were, by accident; the export being on account of Apparel Rs. 100 and Seeds Rs. 10. Madagascar re-appears after an interval of 16 years, the last exports being made in 1859-60.

Aden.—A large increase in the exportation of Treasure is nearly counterbalanced by the decrease in Cotton Manufactures.

Turkey in Asia, Arabia, and Persia.—Cotton Piece Goods, Twist, Sugar and Spices are the principal items of increase.

Ceylon.—The total exports to this island show an increase which is chiefly in Treasure, Provisions, Grain and Pulse, Sugar and Apparel. The exports of Cotton Piece Goods exhibit a decrease.

Japan.—The increase is mainly attributable to the large exports of Indian Twist.

Java.—The Export Trade of Java consists wholly of Treasure, which shows an increase of Rs. 2,54,320 compared with the last year.

Maldives.—The increase is in Cotton Piece Goods, Twist and Grain and Pulse.

Meckran and Sonmeanee.—All the principal articles show an improved trade, viz., Silk Raw, Cotton Piece-Goods, Grain and Pulse, Metals and Treasure.

Straits Settlements.—The increase in proportion to the value of the Export Trade is insignificant; more than half the increase is in Treasure.

19. From the foregoing tabular statement it will be observed that on comparison with the previous year there has been an increase on the whole in the Import Trade, excluding private treasure, of nearly two crores. In Treasure there has been a large decrease of Rs. 1,09,64,078, which reduces the increase of the whole Import Trade, including private treasure, to Rs. 86,62,158. The increase in the

Imports of Merchandize, viz., Rs. 1,96,26,226, may be partly accounted for by the difference in Tariff values of certain dutiable articles registered during the previous year and the ruling market values which have been substituted during the year under report.

20. The visit of His Royal Highness the Prince of Wales also contributed to the increase by giving a stimulus to certain branches of the Trade, particularly articles of luxury, while the general Trade benefited by the consequent influx of large numbers of people from all parts of the Empire.

21. In spite of this increase the Import Trade has not, it is said in mercantile circles, been as a rule profitable, owing to sterling exchange being continuously adverse to remitters.

22. The items in which the largest increases are apparent, are Apparel, Cabinetware and Furniture, Cotton Piece Goods, Ivory and Ivoryware, Liquors, Machinery and Millwork, Metals, Provisions, Spices, Sugar, including other Saccharine produce, Tea, Umbrellas, and Woollen Piece Goods. The articles which exhibit large decrease are Cotton Twist and Yarn, Paper and Pasteboard, Railway Plant and Rolling Stock, Silk Raw, and Treasure.

INCREASE.

Apparel.—The importation of this article amounts to Rs. 22,32,648, which shows an increase of Rs. 1,63,720 over that of the last year. Imports from the United Kingdom alone amounted to Rs. 19,86,051 and from China Rs. 1,14,316.

Cabinetware and Furniture.—The importation of this item, which had reached to upwards of four lacs and a half in 1865-66 during the share mania, gradually fell to about Rs. 43,000 in 1873-74, and in 1874-75 it amounted only to Rs. 54,000. It has risen this year to Rs. 2,03,793. This increase is owing to large imports of furniture from the United Kingdom for the occasion of the Royal visit.

Candles—Show an increase of Rs. 71,443 over the importation of last year and of Rs. 28,153 as compared with the average of the past five years.

Clocks and Watches.—There is perhaps an increasing use of these articles owing to their cheapness.

Cotton Piece Goods.—Though this item shows an increase of upwards of 35 lacs of rupees on the whole, the imports of Grey Shirtings, Long Cloths, T. Cloths, Domestics and Sheetings have fallen off considerably as compared with the last year, the local manufactures competing with this description of goods. The finer description of Grey fabrics, such as Jaconets, Mulls, Printers and Madapollams show an increase, as also White and Colored Piece Goods, which were needed to meet the exceptional demand.

The total value of Imports of Cotton Piece Goods this year amounted to Rs. 4,62,45,868, out of which Rs. 3,49,41,176 worth of Piece Goods was from the United Kingdom alone and the rest chiefly from Trieste, Genoa, and Venice.

The value of Re-Exports amounted to Rs. 93,16,301, which is less than that of the preceding year by Rs. 4,47,554. The Re-Exports were chiefly to the Eastern Coast of Africa, Aden, Arabia, Persia, Straits Settlements and Turkey in Asia.

Earthenware and Porcelain and Glass and Glassware.—Earthenware and Porcelain shows an increase of Rs. 54,830 and Glass and Glassware of Rs. 37,555. These, like other fancy articles, have been largely imported owing to the Royal visit.

Fireworks.—This item shows an increase of Rs. 39,241, and is chiefly in the importation from China.

Hardware and Cutlery.—The increase of nearly Rs. 6 lacs is attributable to the inclusion of Plated-ware in this item instead of as in the preceding year under Metals "all other sorts," and also to larger importation on account of the Royal visit.

Hides and Skins.—There has been an increase of Rs. 87,368, which is mostly in Raw Skins and Hides free of duty imported from the African and the Arabian coasts.

Ivory and Ivoryware.—The trade in this important article has been almost the same as last year, being only 1,877 lbs. excess in quantity. There is however a considerable increase in value, amounting to nearly 11 lacs of rupees, which may be accounted for by the difference in the Tariff values registered during the previous year and the high ruling market values shown instead during the year under report. Ivory is chiefly imported from the Eastern Coast of Africa, Aden and Arabia and mostly re-exported to the United Kingdom. An importation of this article from the United Kingdom of lbs. 59,041 would seem to indicate direct importations of hollow pieces from Zanzibar and other places, which were found unsuitable to the English market. As a rule, when Ivory is shipped from this port, only solid pieces are sent.

Leather.—The increase of Rs. 1,13,866 is chiefly in the importation of Boots and Shoes and Harness and Saddlery from the United Kingdom.

Liquors.—Though the importation of Ale, Beer and Porter shows an increase of upwards of 26,000 gallons, the total quantity imported is below the average of the past five years. Spirits, chiefly Brandy, show a considerable increase, there being on the whole 62,987 gallons in excess over that of last year. There is also a trifling increase in Wines.

Machinery and Mill Work.—The remarkable increase noticed last year has continued during the present. The imports in 1871-72 amounted to Rs. 12,68,261, which rose in 1872-73 to nearly double the figure, viz. 23,67,934. In 1873-74 again it increased to 35,45,774, and in 1874-75 to 51,15,174. This figure has again been exceeded by 23 lacs or Rs. 74,17,998, which repre-

sents an increase of six times the importation of 1871-72, or nearly 600 per cent in four years. This increase is attributed to the increased requirements of local industry.

Matches, Lucifer and other.—The cheapness and convenience of this article is bringing it into more general use.

Metals.—The trade of Copper this year remains about the same as last year, it being only 751 cwts. in excess. In value, however, an increase of upwards of 7 lacs of rupees is apparent, which is attributable to the difference between the market values registered during this year instead of the tariff values for the last year. Yellow metal sheets, which are now extensively used for domestic utensils, show an increase of upwards of 7,000 cwt. Iron shows a considerable increase. The imports of Hoop Iron, however, have fallen off. The fall of prices in England has been the cause of the increase, and the market here is said to be overstocked. Quicksilver also shows a considerable increase, owing to the fall of prices in England from £15 in the commencement to £10 at the close of the year. The importations being five times larger than those of the last year, have very much exceeded the demand. German Steel has increased threefold, still maintaining its character for quality and cheapness. Lead, Spelter, Tin and other metals likewise show an increase.

Provisions.—There has been an increase in most articles under this head, especially in Dates from Persia and the Arabian Coast, the value of Imports increasing by nearly 7 lacs.

Silk Piece Goods.—There is a slight increase over the large importation reported last year, but the trade seems forced and is not considered remunerative.

Spices—Show an increase in value of upwards of 10 lacs. The increase is chiefly in cloves, viz. 8,35,103 lbs. in quantity and in value Rs. 8,71,837. The increase in value is to be attributed to the high ruling market values being registered during the year under report instead of the low Tariff values during the preceding year. Other articles coming under this head show also more or less increase.

Sugar and other Saccharine produce.—This item shows an enormous increase both in quantity and value, viz. 2,14,867 cwt. and Rs. 37,81,529. The increase is attributed to the favourable crop at Mauritius and also to the late shipments of the preceding year having been included during the year under report. The registry of the Tariff value in the preceding year and of market values during this year has tended to a certain extent to increase the value. Heavy imports lowered prices, which caused large removals from this market to the interior, where large stocks are said to have remained undisposed of.

Tea.—The importation of Tea during the year under report is unusually large, being upwards of 20 lacs of lbs. to that of 10¾ lacs of the preceding year. The brisk demand at the close of the year 1874-75 has led to large imports of inferior quality from China. The consumption of this article is steadily increasing.

Tobacco Manufactured—Shows an increase in value of Rs. 61,608.

Umbrella.—This item is noticeable for the increase in number 2,62,723 and in value of Rs. 1,79,961 over last year. The United Kingdom and China mostly supply the market at a very cheap rate.

Woollen Piece Goods.—The figures show a considerable increase over the last 5 years average. As compared with the preceding year, there is an increase of upwards of 9 lacs, which after absorbing the decrease of 3 lacs of that year, leaves an excess of six lacs, which may be accounted for by the exceptional circumstances of the year.

DECREASE.

Arms, Ammunition, &c.—The importation of Gunpowder sporting during the last year, which was greatly in excess of the average imports of the previous 5 years, has in a measure checked the importation of the year under report. Firearms also show a decrease. The articles coming under this head are almost wholly imported from the United Kingdom.

Building and Engineering Materials.—The imports of this year amount to Rs. 1,42,989 against Rs. 2,42,829 of the last year, resulting in a decrease of Rs. 99,840, which is chiefly in the imports of cements and clay from the United Kingdom.

Cotton Twist and Yarn.—This important item shows a decrease of 14,59,367 lbs. in quantity and of Rs. 14,78,028 in value. The difference in value is not proportionate to the difference in quantity, owing to the value shown during the year under report being market or Real value, while that registered in the preceding year was Tariff value in accordance with the rule then in force. The decrease is chiefly in lower Nos. viz., in Mule Nos. 16 to 32 and in Nos. 20 and 30, as also in Coloured Yarns; while in the higher Nos. of both Mule and Water there is an increase. The lower Nos. produced in the local Mills account for the decrease. Twist is wholly imported from the United Kingdom. The re-exports during the year under report amount to lbs. 6,70,011 chiefly to Persia, Arabia, and Aden.

Dyeing and Colouring Materials.—This item includes a variety of articles. Aniline Dyes, Cochineal, Madder or Munjeet and Sapanwood show an increase. There is a net decrease, however, of Rs. 84,440, which is to be accounted for by the fact that during the year 1874-75 the value of Saffron registered was at the Tariff rate of Rs. 16 per lb. while during the year under report the market value considerably lower (less than half the Tariff value) has been registered.

Gums and Resins—Collectively show a decrease of about 1¼ lac, chiefly in Rosin. The decrease is also accounted for by the high Tariff value of Rosin registered in the preceding year and the lower market value shown during the year under report.

Instruments and Apparatus—Show a decrease of Rs. 64,593. The imports of the preceding year 1874-75 considerably exceeded the averages of the previous five years.

Jewellery, &c.—This item shows a decrease of nearly 2 lacs of Rupees, which is almost wholly in the importation of Pearls from Arabia and Persia, where the fishery is said to have been unfavourable.

Paper and Paste Board.—The decrease of more than 2 lacs is owing to large importations during the two previous years which left large stocks on hand.

Railway Plant and Rolling Stock.—Shows a decrease of upwards of 3 lacs of rupees over the decrease of last year.

Silk Raw.—There is slight decrease this year of 1,405 lbs. In value, however, the decrease is upwards of 17 lacs of rupees which is attributable to the market values being registered during the year under report.

Treasure.—The decrease of over a crore is attributable to the considerable falling off in the exports of Cotton amounting to nearly 2½ crores during the year under report, which was however partly balanced by an increase in almost all other articles of export, notably in Seeds.

The derangement caused by the demonetization of the Silver currency of the German Empire noticed in last year's report has continued during the present year and seriously affected the exchange which has been continuously adverse to remitters. Bar Silver, which last year was quoted at the lowest price @ 55⅝ per oz., and which at the commencement of this year was at 57, declined at the close to 52¼ with a further downward tendency.

24. The general exports show a decrease of Rs. 1,53,18,742 when compared with the preceding year, notwithstanding the low rates of exchange, which were in favour of exporters. On comparison of the separate branches of the Export Trade, the result is that in the exports of Indian produce there was a decrease of Rs. 2,13,08,369, while the exports of Foreign Merchandize, including Treasure, exhibit an increase of Rs. 59,89,627. The decrease in the exports of Indian produce is mainly attributable to the decreased exports of Opium and Cotton Raw.

25. The increases and decreases are perceptible in the following items:—

INCREASE.

Coffee.—This shows an increase of 3,806 cwts., with an increase in value of Rs. 1,78,134. Of this increase, France alone has taken upwards of 1,500 cwts. more than the preceding year. Turkey in Asia has taken upwards of two thousand cwts. The exports to the United Kingdom also show an increase of upwards of 800 cwts. The trade of this item with Persia and Muscat, however, shows a decrease.

Cotton Twist and Yarn.—The exports of this article show an increase of upwards of 33 lacs lbs. in quantity and about 11½ lacs rupees in value. The increase is chiefly in Exports to China and Japan, to which Ports the exports this year amounted to lbs. 46,31,770 and 1,17,000 against lbs. 14,83,700 and 10,000 respectively during the preceding year. It is said that in the China and Japan markets, the Country Twist is in particular favour. The exports during the year under report are more than double those of the last year. During the past five or six years there has been a steady increase in the exports of this item.

Cotton Piece Goods.—This item does not show as much increase in Exports as was expected from the increased number of mills. Of the total increase of about 2½ lacs, the increase in Grey Piece Goods manufactured at the local mills is only about 40,000 rupees; while the remaining increase is in other fancy country Piece Goods of hand manufacture.

Dyeing and Colouring Materials.—The increase is wholly in the exports of Myrabolams to the United Kingdom and Indigo to the Persian Gulf.

Grain and Pulse.—There is a net increase of Rs. 2,20,246 under this head, which would have been much larger, except for a decrease in most other kinds of grain, except wheat. The trade in wheat seems to take strange turns. The exports of wheat to the United Kingdom show an enormous increase of Rs. 17,81,557 owing, it is surmised, to the apprehensions of a bad harvest at Home at the commencement of the year, while the exports to France during the preceding year, worth about 12 lacs of rupees, have fallen one-half. The trade, which had just commenced with Trieste, has also not maintained its promise. The exports this year are Rs. 29,870 against Rs. 1,32,250 of the preceding year. There is also a falling off in the exports of wheat to Italy and Malta. On the whole, however, there is still an increase of about 6 lacs over the exports of last year.

Hides and Skins—Show a considerable increase of upwards of 13 lacs, which is attributable to the favourable market at Home.

Seeds—Show a considerable increase of Rs. 1,14,45,842, which is chiefly in Linseed to the United Kingdom and France. There is also an increase in the exports of Teel-seed and Rape-seed this year. Linseed has also been exported to Holland and Egypt to the extent of 65,000 cwts., value about 4 lacs rupees. Seeds other sorts also show an increase. The abolition of the Export duty of 3 per cent on Seeds during this year, aided by the reduction in the cost of carriage by the G. I. P. Railway, has notably encouraged the Trade. The exports are three times those of the last year, and altogether without precedent, and this in spite of lower prices at Home throughout the year.

Spices.—This is an item composed of various articles, and on the whole shows an increase of 6¼ lacs which is chiefly in exports of Ginger, Pepper, and Cardamoms. These, however, are not the produce of Bombay, but of the Malabar Coast.

Wool Raw.—In the exports of this article, there is a large increase of upwards of 8½ lacs.

Wool, Manufactures of—Shawls.—The increase of Rs. 1,88,542 in the exports of Shawls is wholly to the United Kingdom. The exports to France remain nearly the same as last year.

DECREASE.

Cotton Raw.—This important article shows a decrease of nearly 9 lacs of cwts. in quantity and 2½ crores of rupees in value. The decrease is chiefly in exports to the United Kingdom, France, and Trieste. The exports to Russia, China, and Italy, however, show an increase. 15,575 cwts. of Cotton were exported to Belgium, 32,381 cwts to Holland, and 26,175 to Spain during the year under report, while there were no exports to these countries during the last year. The decrease is owing to the unfavourable season and short crop, while the consumption for local Mills has largely increased. Besides, Home prices were lower this year, thus discouraging shipments.

Opium.—This article shows a considerable falling off, as compared with last year, when the shipments were unusually large. The exports are however close upon the average of the preceding four years. The market was very depressed in China during the latter part of the year.
